#### DEPUTY DOSS SAYS:

"A crime unreported is a crime unsolved. Help make your campus safe. Report all crimes without delay."

#### CONSERVATION TIPS FROM JIM HULL

"As the days become shorter, you will need more artificial light. But you can save on electricity by keeping lighting levels as low as practicable. When your light switches need replacing, consider installing solid-state dimmer switches. They make it easier to lower lighting levels. Get the most lighting possible from the electricity you use. Keep lamps and lighting fixtures clean. Dirt and dust lower lighting levels."

#### PL 94-142 PROGRAM CONTINUES

The Gallaudet College Public Law 94-142 Program was established in 1977 to enable the College to assume a highly visible leadership role that included responsibility for supporting and safeguarding the rights of all handicapped children, while also specifically monitoring and evaluating the impact of PL 94-142 on the education of hearing impaired students.

Until October of this year, Roslyn Rosen served as coordinator of the program, but has recently assumed the responsibility for the coordination of the Kellogg-Gallaudet "Special School of the Future" project. Replacing Roz is Mike Deninger, Associate Principal of the MSSD, who has assumed responsibility for the PL 94-142 Program for the remainder of this school year. Be assured that the goals and activities of the program will be continued and individuals or departments that have questions about this law or desire information can contact Mike in Pre-College Programs at ext. 465. Program activities will continue to be guided by the Task Force that includes membership from various college units.

#### OPEN SEASON IS UPON US

Open season for Health Benefits will continue until December 8. Until that time permanent employees who are not enrolled in a health benefit plan may elect to join one. Employees already covered by a health benefit plan may change plans and options. Any new enrollments or changes in existing enrollments will become effective on January 1, 1979.

Questions concerning open season are directed to Betty Williams, ext. 756.
